Put Widener on your shelf.

The Widener Library Shelflist is an invaluable reference guide for scholars and librarians, based on the collections in Harvard University's famed Widener Library.

Each shelflist contains a detailed subject classification as well as an alphabetical and a chronological listing of all material. The essential bibliographical description of a book—author, title, place and date of publication—is at your fingertips. It's like having part of the Widener Library card catalog on your shelf.

The first twenty volumes in the series were produced from computer printouts and average seventy entries per page. In subsequent volumes copy is set by computerized photo-composition in two-column pages with approximately 140 entries per page. Volumes are each 8½ by 11 inches, printed on durable paper and bound in cloth.

The latest additions to the collection include:

Ancient History.

This volume catalogs more than 11,000 works on the history, civilization, government, economic and social conditions, and geography of the Mediterranean region and Western Asia down to the Barbarian invasions in Europe and the Arab conquest in Asia and Africa. Included as well are listings of Egyptian and Assyro-Babylonian literatures. Although works on archaeology and prehistoric times are generally excluded, those on Assyrian and Babylonian archaeology form a part of this volume. No. 55 \$40.00

British History.

Included in this catalog are 45,000 works on the history, civilization, government, general social life and conditions, and various races of the British Isles. Most works on economic history and conditions and on special aspects of social conditions can be found in Widener Library Shelflists 23-24 and 45-46. An exception is the inclusion in this catalog of works on the general economic history of Ireland. These volumes also cover writings on the English-speaking peoples and the British Empire in general. index to handicrafts, fifth supplement

The INDEX TO HANDICRAFTS series covers miscellaneous and previously uncollected material on handicrafts and amateur workshop projects. The original Index and four successive Supplements cover from roughly 1900 to 1967. The new **Fifth Supplement**, by Pearl Turner, covers 1968-1973 and includes not only American, but also British titles commonly found in public libraries. Over 1,000 book titles and 15 periodicals not indexed by the **Reader's Guide to Periodical Literature** are included, as well as a separate bibliography listing all books now still-in-print from the titles indexed in the previous Index and Supplements. For a complete description of the Handicrafts series, request a copy of Faxon's Publications Catalog. All previous volumes are still available.

NEW Up-To-Date Books From Noyes Data

NOYES DATA has developed two new techniques of vital importance to those who wish to keep abreast of rapid changes in technology and business conditions: 1) our advanced publishing systems permit us to produce durably-bound books within a few months of manuscript acceptance; 2) our modern processing plant ships all orders on the day after they are received.

HARDCOVER BOOKS—LATE SPRING 1976

HOW TO DISPOSE OF TOXIC SUBSTANCES AND INDUSTRIAL WASTES by P.W.

Powers: This book discusses all those ultimate disposal and recovery methods that are technologically feasible today. Many toxic or hazardous wastes contain valuable materials that can be recovered. ISBN 0-8155-0615-5; \$48

TOBACCO SUBSTITUTES by Marshall Sittig: The ideal tobacco substitute is devoid of ingredients that produce toxic smoke, yet furnishes contentment and satisfaction equal to normal tobacco doses. Practical manufacturing ways and means to this end are described. ISBN 0-8155-0616-3; \$36

DURABLE PRESS TREATMENTS OF FABRICS—RECENT DEVELOPMENTS by R.H.

Manly: Over 300 processes using a wide variety of chemically different textile treating agents broadly related to the concepts of "durable press" and "wash and wear." ISBN 0-8155-0617-1; \$39

FOOD FLAVORING PROCESSES by N.D. Pintauro: When food loses its original fresh odor, its flavor goes also and our senses classify it as stale. But flavors and odors can be "fixed" by chemical complexing, plating onto solid carriers, frangible or permeable microencapsulation and other subtle techniques. This book tells how to do this on a commercial scale. ISBN 0-8155-0618-X; \$39

DEEP COAL MINING—WASTE DISPOSAL TECHNOLOGY by W.S. Doyle: Discusses methods designed to prevent and control pollution associated with the deep mining of coal. The extinguishing of burning refuse banks and their reclamation is described in detail. ISBN 0-8155-0619-8; \$36

RADIATION SPECTRA OF RADIONUCLIDES by T.B. Metcalfe: The unique feature of this presentation of all gamma spectra in tabular form provides the interpreter of mixed radiation emitters with the cross-referencing essential to the identification of each contributing isotope. ISBN 0-8155-0620-1; \$36

MEMBRANE TECHNOLOGY AND INDUSTRIAL SEPARATION TECHNIQUES by

P.R. Keller: Over 280 processes are described. Fabrication techniques as well as end-use applications are given in detail. Electrodialysis and reverse osmosis units using semipermeable membranes are being installed the world over. ISBN 0-8155-0621-X; \$39

Inflation! A Study in Stability

J.W.C. CUMES, *Foreign Affairs Department, Australia*

0 08 018167 8 \$10.00 202pp 1975
215 x 135mm

Explains the causes of inflation and how to deal with it. In doing so, takes a broad view of economic history and theory, and defines clearly the nature of the crisis to which the Keynesian policies of the last generation have brought us. Having examined the fundamental causes of inflation, the book sets out remedies relevant to those fundamental causes.

Also by the same author:

The Indigent Rich: A Theory of General Equilibrium in a Keynesian System

0 08 017534 7 \$10.25 218pp 1972
flexicover 215 x 135mm

Dr. Cumes suggests that although Keynesian economic policies have brought great blessings to mankind, they have introduced new problems for today's affluent society.

Research and American Industrial Development: A Bicentennial Look at the Contributions of Applied R & D

HAROLD VAGTBORG, *President, Southwest Research Center, San Antonio, Texas*

0 08 019791 4 \$18.00 (approx) 1976

Working bibliographic tools that save time, space, and money.

Now on Microfiche, Library of Congress/National Union Catalogs.

As a librarian, you already know the reference value of the Library of Congress/National Union Catalogs. Now discover the working value of LC/NUC on fiche. You will find it's a useful tool that can make your cataloging and bibliographic searches more convenient, more productive, and more economical.

The entire 1898-1974 series—more than 500 volumes—can be stored in less than 15 lineal feet of drawer space. Just a fraction of the 86 feet of shelving required for hardbound volumes. Apart from substantial storage cost savings, this format greatly simplifies access and increases useability.

With the tip of your finger you can quickly flip through eye-legible headers to the entry you seek. No heavy volumes to handle; and since you retrieve individual fiche, many people can access the file simultaneously.

Need a catalog card? The touch of a button yields a full-size master for copying, in a matter of seconds.

With all these benefits, LC/NUC on microfiche costs 55% less than hardbound. Considering the savings, you can afford to place this invaluable tool in most reference and technical departments in your library.

The Library and Education Division of Information Handling Services (formerly Microcard Editions) offers a full series of LC/NUC on fiche. This includes complete Library of Congress Catalogs from 1898 to 1952 and National Union Catalogs from 1952 to the present. They are available by section, but if you purchase the entire 1898-1974 series, we will include a Vantage I reader, free.

Rounding out our comprehensive bibliographic services, we now publish the 1942-1962 Master Cumulation on fiche, and we offer a monthly LC/NUC service to keep your catalogs complete and up-to-date.

To learn more about how LC/NUC on fiche can help make your work easier and more productive, please clip and mail the coupon or call IHS directly. Information Handling Service, Library and Education Division, P.O. Box 1154, Englewood, Colorado 80110. Telephone (303) 771-2600 TWX 910/935-0715.

Methods of Enzymatic Analysis

VOLUMES 1-4

edited by HANS ULRICH BERGMAYER
assisted by Karlfried Gawehn
translated by D. H. Williamson
with the assistance of P. Lund

"The original edition of this book was a very useful collection of practical enzymatic analytic procedures contained in a single volume. . . . From almost every possible viewpoint the new edition is superb. The individual articles are each written by an expert in the field and, in most cases, represent the current state of the art. . . .

"This edition of 'Methods of Enzymatic Analysis' represents an achievement of considerable importance. It should rapidly become a necessary reference for any laboratory whose work involves enzymes in any role."—*Journal of the American Chemical Society*, November 26, 1975

Kinetics of Enzyme Mechanisms

by J. TZE-FEI WONG

"This book is written by a professional. Dr. Wong has plenty of experience in analysing experimental data and he is fully aware that the sophistication of the algebraic treatment must be matched by the quality of the data."

"... The author's critical judgement of different steady-state treatments will be very valuable for most of the potential readers."

"... I would certainly recommend to any graduate student and research worker, who has some basic understanding of kinetics and calculus, to use this book for at least part of his journey towards a professional training in enzymology."

STECHERT MACMILLAN **Specialists in U.S.** **and Foreign Imprints,** **Continuations/Serials** **and Books**

104 years head start in developing continuations/serials service

The acquisition of continuations/serials is one of the most complex problems that face librarians. Their irregular frequency, and the long time-spans which often occur between volumes of series, require both experience and the most sophisticated of recordkeeping systems. Stechert Macmillan offers one of the widest ranges of continuations/serials on a standing order basis.

Over a period of 104 years, Stechert Macmillan has developed the acquisition of continuations/serials into a fine art. In fact, we have supplied some continuations in an unbroken series since 1900.

Stechert Macmillan also provides comprehensive acquisition service for books published in North American and European countries, and will assist customers with acquisition of monographs from other areas.

FOREIGN & DOMESTIC SERIALS SUBSCRIPTION SERVICE TO ALL TYPES & SIZES OF LIBRARIES FROM 11 REGIONAL OFFICES IN THE U.S.A. AND CANADA

COMPREHENSIVENESS

EBSCO services periodicals, newspapers, annuals, yearbooks, irregular book/monographic series (numbered or unnumbered), and continuations. Our computerized price file lists over 100,000 titles. However, we gladly research any title ordered and do not expect the customer to provide publisher name and address. Our research cycle is thorough and provides a quick answer if we are unable to identify the publisher. We service titles from all nations of the world. The only titles we cannot (normally) service for you are order-direct by the publisher's requirement. (However, if you are a librarian who desires to place 100 per cent of all serials with a single agency, we can handle even the order-direct publishers for you.)

FLEXIBILITY

We believe what we do for you and how we do it should be determined by your needs. We have suggested procedures and formats. Our order processing and records are computerized, and we are able to employ our computer to service any special requests you may have. In the event you have a request which a computer, for some reason, cannot honor, we keep our typewriters handy and a perfect willingness to do whatever is necessary to suit your needs.

PERSONALIZED SERVICE

Our network of 11 regional offices headed by General Managers with experience and authority to act guarantees you responsiveness. Our 11 Managers have 151 years' experience among them in servicing libraries with serials subscriptions. Order control is located at our regional office. The Manager who commits is the Manager who controls. Each of our customers is assigned to one Customer Service representative, so there is consistency in communications.

Announcing The State Publications Program

For 10% prepublication discount, place your order before August 31, 1976.

Now for the first time a single information service will give you convenient access, control and retrieval of official state publications. At a price you can afford.

The *State Publications Program* from the Library and Education Division of Information Handling Services is more than a simple microfiche republishing venture. It's a fully integrated system that includes comprehensive bibliographic aids and indexing for official publications of all 50 states, Puerto Rico, and the Virgin Islands.

The key element of this new service is the quarterly, hardcopy *Checklist of Current Publications*. Arranged alphabetically by state, and fully indexed, the *Checklist* gives you extensive bibliographic coverage of all discoverable official documents of state agencies and departments. Price for the 1975 *Checklist of Current Publications* (three quarterly and one cumulative volumes) is \$185. Place your order before August 31, 1976 and receive a 10% discount.

The second major element of the program is a selection of current state publications in your choice of silver or diazo microfiche. The fiche are complemented by an extensive, hardcopy *Bibliography/Index* for efficient document access and control.

Both the *Bibliography* and the publications are arranged in 18 subject categories, including such topics as agriculture, labor and employment, taxation, revenue and budgets, transportation, law enforcement, health care, and environment.

Significantly, this file is enriched by important—and difficult-to-obtain—legislative council, committee, and commission reports. The price, \$3,000, includes approximately 2,000 separate titles issued in 1975, on silver halide microfiche (Type 1A), and two, semi-annual volumes of the *Bibliography/Index*. Orders confirmed by August 31, 1976 receive a 10% discount.

The final segment of the *State Publications Program* is a custom service for selective, title-by-title acquisition. Through this service, you may obtain individual documents, the documents of a particular state or agency, or the documents pertaining to a particular subject. Please inquire about availability, prices and discounts.

Thorough indexing. Comprehensive bibliographic control. Convenient, single source document acquisition.

The IHS State Publications program will not only help make your work easier, but also enable you to provide significant new research services.

For complete information, including the publishing schedule for 1972-1974 and future years, please clip and mail the coupon. Or call Agnes Hartman at IHS. Three timely reports on library systems from "the authority"

Automated Circulation Control Systems: An Overview of Com- mercially Vended Systems

An extensive discussion by Barbara Evans Markuson of the characteristics of five circulation control systems, including CLSI, Checkpoint/Plessey, and Check-A-Book. In the July & September 1975 issues of *LTR*. \$35.

Microform Catalog Data Retrieval Systems

A comparison of Information Design, Information Dynamics, and Library Processing Systems. In the May 1975 issue of *LTR*. \$20.

Theft Detection Systems for Libraries

A revealing and valuable 98-page survey of manufacturers and users. In the May 1974 issue of *LTR*. \$20.

Library Technology Reports (LTR) is a unique bimonthly publication of the American Library Association that provides critical evaluations of products used in libraries, media centers, schools, and other educational institutions. Its purpose is twofold: to enable librarians and educators to make economical purchase decisions and to alert manufacturers of library needs and standards of performance expected.

The Booklist sandwiches

more between its covers

The steadily increasing amount and variety of nonprint material sometimes seems indigestible.

The *Booklist* can make it more palatable.

- Over 300 16mm films are evaluated and recommended each year by full-time staff reviewers in critical, analytical signed reviews appearing twice each month.
- More than 100 videocassettes are reviewed every year by carefully selected librarians in a monthly review column.
- Special interest filmographies on such topics as *Women on Film*, *Selected Films for Young Adults*, *Film Programs for Senior Citizens*, and *Notable Children's Films*—compiled by librarians working with and programming for special groups—expand the regular coverage of 16mm films.

The *Booklist*, of course, continues to review the other media—filmstrips, multimedia kits, slides, traveling educational exhibits, audiocassettes, phonodiscs . . . and books . . . in regular review columns and cross-media lists prepared by staff and field reviewers.

Join the nearly 40,000 public, school and college librarians and media specialists who have found the *Booklist* a reliable, stimulating guide to 16mm films and a whole array of other library materials.

MINUTE INFORMATION

ENCYCLOPEDIA OF 10 ASSOCIATIONS

EDITION

Volume 1. NATIONAL ORGANIZATIONS OF THE U.S. 1,417 pages. Alphabetical Index to Organization Names and Keywords. CIP: L.C. No. 76-4878. ISBN 0-8103-0127-X. \$64.00.

For over 20 years, Gale's *Encyclopedia of Associations* has been popular with librarians and researchers because it is one of the few reference tools completely in tune with the information explosion. In many fields, new ideas and techniques appear with such rapidity that data in books and periodicals are obsolete by the time they reach library shelves. *EA* solves the problem by telling you exactly whom to write, phone, or visit for the latest facts, figures, and opinions.

The basic Volume 1 lists 13,583 active organizations in 17 major subject categories, such as trade, agriculture, law, education, religion, etc. Each entry provides all you need to know about the association—its official name, popular name or acronym, address, phone number, number of members, chief executive, committees, publications, convention/meeting schedule, and much more.

Volume 2. GEOGRAPHIC AND EXECUTIVE INDEX. 718 pages. CIP: L.C. No. 76-4878. ISBN 0-8103-0132-6. \$45.00.

Volume 2 is divided into two sections. The *Geographic Index* lists in state and city order all the associations that are arranged in Volume 1 by subject. Included are addresses, phone numbers, and names of executives. The *Executive Index* lists by surname all the executives mentioned in Volume 1, followed by their titles, names of their organizations, complete addresses, and phone numbers. Each listing in both sections gives the entry number of the more detailed organization entry in Volume 1.

Volume 3. NEW ASSOCIATIONS AND PROJECTS. A periodical publication which supplements information in Volume 1. Cumulatively indexed. ISBN 0-8103-0130-X. Inter-edition subscription, with binder for new subscribers, \$55.00.

The periodical supplement service keeps you abreast of the information explosion. It provides, in the same format as Volume 1, full descriptions of *newly* formed associations, which are of particular interest to researchers, because *new* groups tend to be concerned with *new problems* and *new ideas* not adequately covered elsewhere.

Reviewers Have Had High Praise for EA:

"The *Encyclopedia of Associations* has earned its reputation as a cornerstone of any sound general reference collection . . . In a word, *EA* is a basic reference tool. All libraries should have it." (*RQ*, Spring 1973)

"The work is still the most comprehensive directory of associations in the U.S." (*Booklist*, "Reference and Subscription Books Reviews," Oct. 15, 1975)

Included in *Choice's* "Opening Day Collection," 3rd Edition.

"Highly recommended." (*American Reference Books Annual*, 1973)

"The only comprehensive source of detailed information on nonprofit American membership organizations of national scope." (*Guide to Reference Books for School Media Centers*, 1973)

The *Encyclopedia of Associations* and all Gale books of a continuing nature are available on Standing Order. Complete catalog of Gale books sent on request.
